

Why study Winston Churchill in Missouri?

At a young age, Winston Churchill said, “I have faith in my star that I am intended to do something in the world.”

If you lived in the United Kingdom, you would know this man as one of your country’s greatest heroes. Many historians believe Churchill changed the course of history during World War II through his leadership and commanding speeches. Why study Churchill here in Missouri?

After this experience, you will be able to answer why everyone in Missouri should know Churchill and why the world knows Fulton and Westminster College because of Churchill. You will see how one person, with vision and energy, can make a difference throughout his or her life.

The World of Winston

Over a century ago, in 1874, Winston Churchill was born in England. Sent away to school, he was a poor student and was often in trouble. Yet, when he wanted to do so, he could convey his thoughts in writing and had a love of the language. After his father's death in 1894, he joined the cavalry (soldiers that rode horses) and began his military career. He traveled to four continents by the time he was 25. You will follow Churchill as he traveled the world and learn how his observations and experiences provided the foundation of his leadership.
